

GRAS RA0216

Field verification adapter for 67AX/AD

Material: Black POM

This is a pistonphone adapter which is designed for field verification of the 1/2" flush-mount microphone included in GRAS 67AX/67AD Ground Array Microphone kits.

Introduction

The GRAS RA0216 is an adapter to be used for field-verification of the 1/2" flush-mount microphone which is part of GRAS 67AX & 67AD. In addition to the actual adapter, a ring with two fingerscrews are included. Thereby the adapter can be firmly attached to the plate which has corresponding threaded holes.

The adapter fits both pistonphones (e.g. 42AP Intelligent Pistonphone) and the GRAS 42AB Sound Calibrator.

In addition, the adapter can be used for field verification of 1/2", 1/4" or 1/8" flush-mounted microphones in test objects. In this case the included ring is not used.

Quality & Warranty

GRAS accessories are made of stainless steel, alloys and high-quality composites. These items are covered by a 2 year warranty respecting their intended use.

On consumables like batteries, cables and windscreen we offer a 6 month warranty.

About GRAS Sound & Vibration

GRAS is a worldwide leader in the sound and vibration industry. We develop and manufacture state-of-the-art measurement microphones and related equipment for industries where acoustic measuring accuracy and repeatability are of the utmost importance. This includes applications and solutions for customers within the fields of aerospace, automotive, audiology, consumer electronics and other highly demanding industries. GRAS microphones are designed to live up to the high quality, durability and accuracy that our customers have come to expect, trust and require. GRAS Sound & Vibration is represented through subsidiaries and distributors in more than 40 countries and is part of Axiometrix Solutions, a leading test solutions provider comprised of globally recognized measurement brands.
